FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

In the Matter of )

Amendment of Section 73.202(b)  
Table of Allotments,  
FM Broadcast Stations.

) MM Docket No. 01-248 /  
) RM-10241

(Dos Palos  
and Chualar, California)

To: Mass Media Bureau (Policy & Rules)

COMMENTS IN OPPOSITION

J & M Broadcasting Inc., licensee of FM station KBOQ, Carmel, California, ("KBOQ"), by its attorney, respectfully opposes the Commission's proposal, as described in its Notice of Proposed Rule Making, DA 01-2206, released September 21, 2001 ("NPRM"). Therein, the Commission proposed substituting Channel 240A at Chualar, California, for Channel 240A at Dos Palos, California, and modifying the license of FM Station KNTD accordingly. In support thereof, the following is shown.

This proceeding goes back to March 20, 2000, when KNTD filed a petition for rulemaking to change its city of license from Livingston, CA to Dos Palos, CA. See MM Docket 00-92. Therein, KNTD pointed out the benefits of such a change, particularly that Dos Palos, a substantial community of over 4,000 people, would obtain its first local transmission service, while Livingston would retain local service. KNTD committed to promptly apply for a construction permit to serve Dos Palos upon grant of its request, and, at least by implication, to construct and operate the station

as a Dos Palos facility. The Commission granted KNT0's request, 15 FCC Rcd 20225 (2000), and subsequently granted KNT0's application for a construction permit at Dos Palos (File No. BPH-20010214ACG).

However, KNT0 has not constructed its Dos Palos station. Rather, it seeks to move the station again, this time to Chualar, but gives no reason for wanting to abandon Dos Palos. As shown in KNT0's petition for rule making, the spacing for a Chualar allotment is limited by KBOQ, among other stations, and KNT0's proposed site is at about the minimum permissible distance to KBOQ. Grant of KNT0's request would thus severely limit KBOQ's ability to change its transmitter site, should that become necessary. As KBOQ would be adversely affected by the instant proposal, it has standing to participate in this proceeding.

The provisions of Section 307(b) of the Communications Act must be met for the Commission to authorize a change in city of license of a broadcast station. As the Commission noted in its NPRM, first local service is the third priority, while second local service is the fourth. The Commission recognized these priorities in its earlier ruling which granted KNT0's request to change its city of license from Livingston to Dos Palos.

KNT0's proposal, however, does not comport with the Section 307(b) priorities. Chualar is the city of license of station KHAD. While KHAD is an educational station, the Commission considers educational stations in evaluating local transmission services. Dos Palos, in contrast, has no local transmission service. Hence, changing KNT0's city of license as proposed would result in

substituting a priority four city for the existing priority three city. Clearly, this does not meet the goals of Section 307(b).<sup>1</sup> Such a proposal must be denied. Hamilton, Meridian, and Marble Falls, Texas, DA 99-724 (Allocations Branch, 1999).

Moreover, Dos Palos is significantly larger than Chualar. As the NPRM noted, the population of Dos Palos is 4,581, while Chualar's is only 1,444. Thus, even if Chualar had no local service, Dos Palos would be favored, for the more populous community generally is given the allotment when the Commission considers where to allot a first local service.<sup>2</sup> Blanchard, Louisiana, 10 FCC Rcd 9828 (1995).

Attached hereto are a number of letters from city officials, community leaders, and other residents of Dos Palos testifying to the needs of that city for its own station. Among those persons writing in support of keeping KNTO at Dos Palos are the Mayor, the City Manger, the Superintendent of Schools, the president of the Women's Improvement Club, the Chairman of the Board of an applicant for a low-power FM station, as well as twenty-three resident of Dos Palos. These letters note that a local radio station is urgently needed to provide instantaneous communications in times of emergencies, as well as to address the unique local needs and interests of Dos Palos. These citizens, who have made the effort to

---

<sup>1</sup> As the NPRM recited, "we do not generally believe that the public interest is served by removing a community's sole local service merely to provide service to another community."

<sup>2</sup> While the Commission also takes reception services into account, there is nothing to show that either community does not receive an adequate number of services.

express their concerns over the prospective loss of Dos Palos' station, should not be ignored. This impressive showing of support for keeping KNTD at Dos Palos further demonstrates that the removal of KNTD from Dos Palos does not serve the public interest.

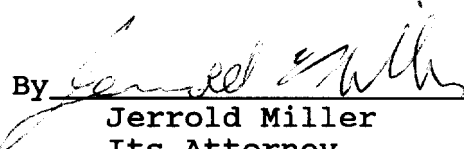

KNTD has attempted to mislead the Commission by asserting that its present community of license is Livingston, and thus that the comparison for Section 307(b) purposes is between Livingston and Chualar. KNTD is well aware that the Commission modified its license to specify Dos Palos as its city of license when it concluded the previous rule making proceeding. Under Commission policy, KNTD has implicit temporary authority to continue to operate from its Livingston transmitter site until it constructed its new site at Dos Palos. However, KNTD is now a Dos Palos station, not a Livingston one, and the proper comparison is between Dos Palos and Chualar.

KNTD's attempt to move its station from Dos Palos without constructing there, and without providing any reason for not doing so, calls into question the bona fides of its original representations to the Commission that it intended to become a Dos Palos station. The Commission should not reward KNTD for its improper actions, and allow its processes to be manipulated, by permitting KNTD to abandon Dos Palos.

It is clear from the above that the public interest demands denial of the proposal of KNTD, Inc. The allotment at Dos Palos must remain.

Respectfully Submitted,

J & M BROADCASTING, INC.

Gentlemen:

My name is Jerry Westlake, a businessman and Mayor of the City of Dos Palos, California. I am aware that radio station KNT0 has been authorized to move to Dos Palos, California. It will be the City's first radio station. I am looking forward to KNT0 going on the air as a Dos Palos station. Dos Palos needs its own station to broadcast local news and information and address local issues. In times of emergencies, a Dos Palos station would be invaluable. Other stations, which concentrate on their own communities, do not provide adequate coverage of the needs of Dos Palos.

I understand that KNT0 has asked the FCC for permission to abandon Dos Palos in favor of Chualar in Docket 01-248. I strongly oppose this move. The City of Dos Palos, is considerably larger than the unincorporated community of Chualar, which already has its own station, KHDC, to provide broadcast information. Moving KNT0 out of Dos Palos would deprive our city of its opportunity to have its own outlet, and would be a great disappointment to those of us who have been anticipating our own local radio station.

Please let me know if I can be of further assistance.

Yours truly,

Jerry Westlake  
Mayor of Dos Palos

Federal Communications Commission  
Washington DC

Dear Communications Officials:

It has come to my attention that Radio Station KNTO (FM 95.9), currently authorized in the congested Merced area at Livingston, California has requested authorization to move to Dos Palos, California. Such a move would mean that Dos Palos will have its very first Radio Station--either AM or FM.

As the City Manager and as an active community leader in Dos Palos, I am keenly aware of our local need for an instantaneous source of news and weather. In light of recent terrorist attacks, the need for fast, accurate information has never been greater. Other stations concentrate on their own areas or on regional news, while this area is critically ignored.

Now I understand that the ownership of KNTO intends to then re-locate station KNTO to the Salinas market community of Chualar, California, abandoning the City of Dos Palos before its first broadcast (q.v. Docket 01-248). Further, moving the station to Chualar will create interference problems with nearby existing stations and nearby frequencies.

Surely, placing a radio station in Dos Palos, a community currently not served by any local radio station is the best use of this license. Thank you for your consideration.

Sincerely,

Darrell Fonseca  
City Manager

Federal Communications  
Commission  
Washington, D.C.

Dear Sir:

I am writing in regard to the radio station KNTD that has been authorized to move to Dos Palos, California. As the Dos Palos-Oro Loma Joint Unified School District Superintendent of Schools, I fully support KNTD as the city's first radio station. The establishment of KNTD as a Dos Palos station would be invaluable in times of emergencies and would provide the opportunity to address local issues and broadcast local news and information.

KNTD has requested that the FCC grant permission to abandon Dos Palos in favor of Chualar in Docket 01-248. Since Chualar has its own station KHDC and is considerably smaller than Dos Palos, I respectfully request that the FCC deny permission to KNTD to move to Chualar.

Dos Palos is excited about having its own local radio station and would be greatly disappointed if our community was denied this opportunity.

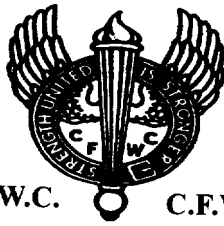

Thank you and please let me know if I can be of further assistance.

Sincerely,

Robert H. Fore, Jr., Ph.D.  
Superintendent

G.F.W.C. C.F.W.C.

Women's Improvement Club of Dos Palos, Dos Palos, California

Federal Communications Commission  
Washington D.C.

Gentlemen:

The Women's Improvement Club of Dos Palos has been serving our community since 1910. Our purpose is "to be a civic league, and to carry on among member clubs a definite educational program along lines of moral, social welfare and civic interests." (Articles of Incorporation.)

We have recently become aware that radio station KNTD, has been authorized to move to Dos Palos. Dos Palos presently has no radio station. Currently we have no broadcast capabilities in the event of emergencies at our local schools or within our city limits and surrounding areas.

Dos Palos would greatly benefit from a local station to announce community events, broadcast local news and information and address local issues such as our upcoming school board election. It would also provide an on-air opportunity for local commerce to advertise.

We further understand that KNTD has asked the FCC for permission to abandon Dos Palos in favor of Chualar in Docket 01-248. We strongly oppose this move. Chualar already has a local radio station, KHDC. Moving KNTD out of Dos Palos would deprive our city of its opportunity to have its own outlet and would be a great disappointment to those of us who have been anticipating our own local radio station.

The Women's Improvement Club of Dos Palos has voted unanimously to write and present this letter to you. Thank you for your attention.

Sincerely,

Kathleen Escalante  
President, Women's Improvement  
Club of Dos Palos

Gentlemen:

November 1, 2001

Dos Palos Radio, a nonprofit corporation, has been working for the past sixteen months to bring a Low Power FM station to Dos Palos. Our purpose in doing this has been to provide Dos Palos with a means to broadcast local emergency information as well as to keep our community informed on local news and events and to provide an educational venue to our citizens.

Dos Palos currently has no radio station. Stations in surrounding communities do not adequately address the needs of Dos Palos.

Recently we discovered that KNTO radio station had been authorized to move to Dos Palos. Although this is a commercial station, we were pleased to know we would at least have a local station. A commercial station would benefit local commerce by way of advertising, which our small, nonprofit station would not.

We now understand that KNTO has asked the FCC for permission to abandon Dos Palos and move to Chualar in Docket 01-248. We would like to present our strong opposition to this move. The population of Dos Palos

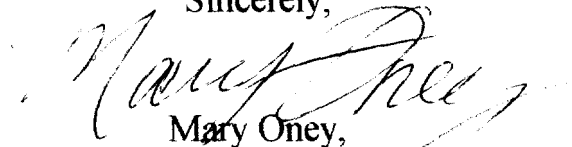

is larger than Chualar's and Chualar already has a radio station, KHDC, to broadcast local information.

If KNTD abandons its plan to move to Dos Palos it will deny our city the chance to have its own voice. Further, it will leave us with no public service broadcast system in case of emergencies in our schools, our city and in the surrounding area.

This commercial station is a true necessity for our community. We ask your help in keeping KNTD here.

Thank you for your time and attention,

Sincerely,

A handwritten signature in cursive script, appearing to read "Mary Oney", written over the printed name.

Mary Oney,

Chairman of the Board,

Dos Palos Radio

to move to Dos Palos. It will be the city's first radio station. I am looking forward  
to KNTD going on the air as a Dos Palos station. Dos Palos needs its own  
station to broadcast local news and information and address local issues. In  
times of emergencies, a Dos Palos station would be invaluable. Other stations,  
which concentrate on their own communities, do not provide adequate coverage  
of the needs of Dos Palos.

I understand that KNTD has asked the FCC for permission to abandon  
Dos Palos in favor of Chualar in Docket 01-248. I strongly oppose this move.  
Dos Palos is considerably larger than Chualar which has its own station KHDC  
to broadcast local information. Moving KNTD out of Dos Palos would deprive  
our city of its opportunity to have its own outlet, and would be a great  
disappointment to those of us who have been anticipating our own local radio  
station.

Please let me know if I may be of further assistance.

Yours truly,

Michelle T. (Signature)
